

# SPLITTING MACHINE

0102011

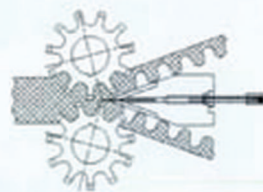

Model No. ET001/SM-601 , SM-602

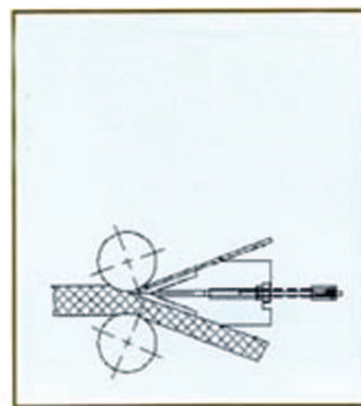

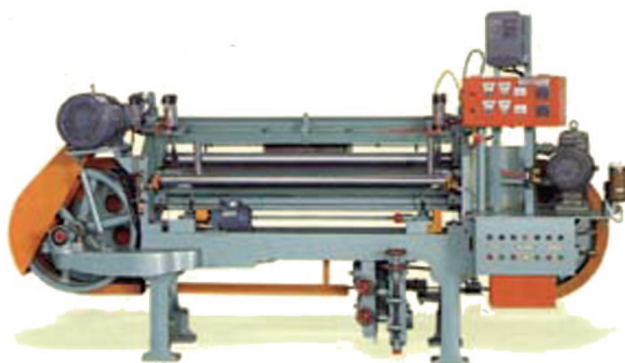

Splitting machine

Contour /pattern cut

Model No. ET001/SM-675 , SM-676

## TECHNICAL DATA

Model No ET001/SM-635 , SM-636

| MODEL NO.   | WORKING WIDTH | POWER  | SPLITTING SPEED/HR | SPLITTING THICKNESS | SPLITTING HARDNESS | MACHINES DIMENSION |
|---|---------------|--------|--------------------|---------------------|--------------------|--------------------|
| ET001/SM-601  | 1800mm        | 12.5HP | 360~1380M          | 1~100mm             | 30~60              | 3800x1250x2000     |
| ET001/SM-602  | 1500mm        | 12.5HP | 360~1380M          | 1~100mm             | 30~60              | 3600x1250x2000     |
| ET001/SM-675  | 1500mm        | 12.5HP | 240~840M           |                     | 60(BELOW)          | 3600x1250x2000     |
| ET001/SM-676  | 1800mm        | 12.5HP | 240~840M           |                     | 60(BELOW)          | 3800x1250x2000     |
| ET001/SM-635  | 1500mm        | 12.5HP | 360~1320M          | 1~100mm             | 30(BELOW)          | 3600x1500x2000     |
| ET001/SM-636  | 1800mm        | 12.5HP | 360~1320M          | 1~100mm             | 30(BELOW)          | 3800x1250x2000     |
| ET001/SM-601~2 Splitting material-EVA, PE, PVC, and similar material              |               |        |                    |                     |                    |                    |
| ET001/SM-675~6 Splitting material-Sponge, EVA, SBR, NBR, CR, and similar material |               |        |                    |                     |                    |                    |
| ET001/SM-635~6 Splitting material--SBR, NBR, CR and similar material              |               |        |                    |                     |                    |                    |
